Changes to existing files:

1. **Server.js -** Added useNewUrlParser attribute to mongodb connect method to avoid DeprecationWarning.

2. **Board.js -** Added Table component after lists are mapped and passed lists prop to it.

New files added:
1. **Table.jsx -** For the lists prop passed to it, mapped the necessary data onto table rows.

2. **Table.scss -** Styling for the table component.

Final result ss:
